

Shopping Exercise

Mary's mother ask her to go to the supermarket shopping and gave her the following shopping list:
Carrots, Meat, Fish , Eggs, Rice, Sugar. For paying Mary received 3 distinct banknotes

- 1 – Check if Mary can buy all the groceries or not. As an extra you can mention the groceries that she couldn't buy
- 2 - Check what are the banknotes that she is going to deliver, and the money she will receive
- 3 – Consider the promotion of the Eggs having a 10% discount on the price
- 4 – In case Mary bought everything, her mother told her she could receive 5% of the remaining money. Calculate the money that Mary received
